

IM1800 MOBILE POTTING MACHINE

Integrated Horticultural Automation

FEATURING SYSTEMS FOR:

- Transplanting
- Soil mixing and distribution
- Plug tray fillers
- Integrated seeding lines
- Dispensers and fillers for flats and pots
- Plug grading and consolidation
- Planting lines for cuttings
- Watering booms
- Stationary / movable conveyors
- Custom automation
- Labeling equipment
- Rolling bench growing systems
- Rolling bench automation
- Vision grading and shipping systems
- 24 hr. technical assistance
- Installation & service

Specifications:

Container Capacity:
8" to 16" diameter containers
up to 12 1/2" tall - chute can be
modified for up to 19" tall.

Hopper Capacity: 2.3 Yds.

Machine Dimensions:
130" L x 44" W x 75" H

Weight: 1100 lbs

Electrical Requirements:
230 VAC, single phase,
1600 W

Features:

- * Vibrating potting bench
- * Hinged hopper side panel
- * Single and double discharge potting chute.
- * Hands-free soil elevator controls
- * Built-in fork pockets
- * Powered soil return belt

The IM1800 is an economical solution for filling individual containers from 8" to 16" in diameter, and up to 19" tall. Production rates are 350 - 500 containers per hour depending upon the size of the container and the level of compaction desired. The height of the hopper and drop down side panel allow for easy soil loading. This potter offers mobility, versatility, and value in a user-friendly package.
