

Soil Handling

Mayer - EM 6012

BENEFITS:

- For accurate mixing of all common substrates and fertilizers
- The mixing process won't change the structure of your substrate
- Can be emptied completely
- Duration of mixing procedure adjustable from 0.5 to 30 minutes
- Automatic mixing and emptying by means of a timer (2 selectable speed levels) or direct feeding of a potting machine or tray filling machine
- Special mixing system with swiveling elevator, drive by means of an electric motor
- Mobile via transport handle

Any common kind of substrate or fertilizer can be used on Mayer's EM 6012 Soil Mixer. This mixer can mix various components into the soil and can even be set to moisten the soil before it is discharged.

The open soil hopper design allows the soil mixer to be easily filled from three sides by a shovel loader, a wheelbarrow or a big bale breaker. The EM-6012 Soil Mixer can also be used as an additional soil hopper or as a filling machine for containers and poly bags.
