Mayer - Pot Robot

For the transfer of pots between the conveyor and table

Mayer's Pot Robot TR 4103 is a powerful pot handling system; essential for efficiently producing high volumes.

The latest version of the TR 4103 pot robot from Mayer elevates the whole process of filling and conveying pots to a new level in automation.

Assessories

- Additional movement of fork
- Fork for placing/taking off pots
- Collecting bar, potentiometer
- Air blower unit for conveyor belt
- Additional switch cabinet for connecting more than one automatic placer
- Sensor controlled drive for container movement
- Variety of conveyor belts

With this system, efficiency and precision go hand in hand. The TR 4103 is a quiet operation that effectively displays both power and accuracy as it places pots on mobile benches, trailers or collating conveyors (PLC-controlled). As an automatic distribution center, it offers improved processing potential, ideally suited to powerful, large volume potting machines. With its durable 5.7" touch screen it is easy to program and input data.

Technical Specifications:		
Dimensions (L x W x H):	9' x 3' - 3" x 6' - 11"	2.75 x 1 x 2.11 m
Weight:	1,014 lb	460 kg
Max. Fork Width:	5' - 3"	1.6 m
Pot Size:	3 1/8" - 6 1/4" / 9 7/8"	8-16/25 cm
Capacity:	Up to 7,000 pots per hour	

With over 20 years in the horticulture business, Bellpark Horticulture is a trusted name in Horticultural Automation Solutions. Serving growers in Canada and the United States, the Bellpark team strives to provide customers with the highest quality solutions.

Our sales and project consultants realize that each grower is different and that each project requires a personal level of attention to detail to ensure its success.

Our service team is committed to offering our customers the highest level of service with the quickest response time. With a dedicated parts and service department, our factory-trained technicians are available when you need them.

Since 1967, Visser Horti Systems has designed and manufactured machines and complete production lines for both large and small horticulture nurseries. They are dedicated to producing innovative, quality greenhouse machinery.
