

Filling

## Mayer - TM 2018

*Reliable Filling of Large Pots*

**The TM-2018 is a fast, reliable, and efficient potting machine for filling either round or square containers as well as poly bags without a drilling system.**

This potting machine works excellently when potting root balls and all kinds of bare rooted plants, such as: roses, shrubs, and fruit trees. The TM 2018 is also especially useful in potting tall trees.

# Benefits of the TM 2018:

- Does not require retooling
- Excellent for potting over-sized containers (eg. 6.6 gal (25 litres) or more)
- High elevator with soil chute for one or two filling stations
- Rotating pot supports
- Direct return of waste soil into the elevator system

## Accessories:

- Soil hopper extension
- Conveyor belts, roller conveyors
- Stainless steel shovels and chains
- Special car tyres
- Vibration unit
- Special soil chute for 1 pot, etc.

### Technical Specifications:

Output	Depends on container size	
Hopper Capacity	1.96 yards <sup>3</sup>	1,500 litres
Hopper Capacity With Extension	3.27 / 4.58 / 5.23 yards <sup>3</sup>	2,500 / 3,500 / 4,000 litres
Transport Dimensions	9' - 10" x 4' - 3" x 6' - 7"	3 x 1.3 x 2 m
Weight	1,058 lb	480 kg
Min. Pot Size	6.6 gal	25 litres

With over 20 years in the horticulture business, Bellpark Horticulture is a trusted name in Horticultural Automation Solutions. Serving growers in Canada and the United States, the Bellpark team strives to provide customers with the highest quality solutions.

Our sales and project consultants realize that each grower is different and that each project requires a personal level of attention to detail to ensure its success.

Our service team is committed to offering our customers the highest level of service with the quickest response time. With a dedicated parts and service department, our factory-trained technicians are available when you need them.

## ■ mayer

Since 1967 Mayer has been a setting new standards in the green sector with their leading innovative automation solutions for ornamental plants and tree nurseries. They develop, produce and sell quality automation solutions for substrate preparation and for filling pots and trays.
