Mayer - New TM 2432 D & E

The Large Pot Potting Machine

BENEFITS:

- Robust and durable potting machine especially suited for nurseries
- Low turntable design for maximum ergonomics
- Jerk-free turntable movement and high running smoothness even at high production rates
- Electronically adjustable speed of elevator and turntable by frequency converter
- Central quick adjustment of pot sizes and pot height by ratchet
- Three-part stainless steel soil chutes for exact metering of the additional substrate on the center of the turntable
- Large number of equipment variants available for individual requirements

Mayer's TM 2432 is now better than ever! The newly redesigned TM 2432 features a lower turntable design for maximum ergonomics.

With two models to choose from now, you can be assured that you are getting the right machine for your needs. The "D" model can easily be converted from its signature double mode into single mode. Both models are well suited for an impressive range of pot sizes; both round and square. The TM 2432 is perfect for your new or existing line as it can be integrated with many other machines from most Horticulture Automation manufacturers.

Key Features of the "E" Model:

- Touchscreen controls
- Low turntable design for maximum ergonomics
- Suited for a wide range of pot sizes
- Robust and durable
- Jerk-free turntable movement and high running smoothness even at peak production
- Electronically adjustable speed of elevator and turntable by frequency converter
- Quick and easy adjustment of pot sizes by ratchet
- Three part stainless steel soil chutes for precise dosage of additional substrate on the center of the turntable
- Perfect for nurseries and perennial farms

Technical Specifications:

Output	Up to 3,000 pots/hr	
Pot Size (Round)	4.7" - 12.6"	12 - 32 cm
Pot Size (Square)	3.1" - 8.7"	8 - 22 cm
Soil Hopper	2.2 yards ³	1,700 liters
Soil Hopper Extension	Up to 5.0 m ³	Up to 5,000 liters
Transport Dimensions	13' - 4" x 6' - 2" x 6' - 4"	4.1 x 1.9 x 1.95 m
Weight	3,527 lb	1,600 kg
Accessories	Soil hopper extension, pot dispenser, fertilizer dispenser, stainless steel chains, additional frequency converter, rotating brush.	

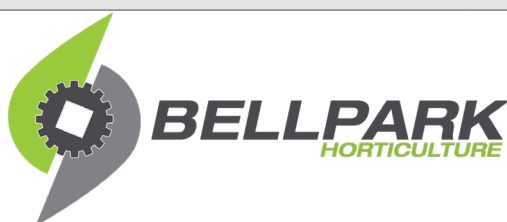

Key Features of the "D" Model:

- Touchscreen controls
- Quick change between double and single mode
- Low turntable design for maximum ergonomics
- Suited for a wide range of pot sizes
- Robust and durable
- Jerk-free turntable movement and high running smoothness even at peak production
- Electronically adjustable speed of elevator and turntable by frequency converter
- Quick and easy adjustment of pot sizes by ratchet
- Three part stainless steel soil chutes for precise dosage of additional substrate on the center of the turntable
- Perfect for nurseries and perennial farms

Technical Specifications:

Output	Up to 5,500 pots/hr	
Pot Size (Round)	4.7" - 12.6" (single mode) 3.5" - 6.3" (double mode)	12 - 32 cm (single mode) 9 - 16 cm (double mode)
Pot Size (Square)	3.1" - 8.7" (single mode) 3.1" - 5.5" (double mode)	8 - 22 cm (single mode) 8 - 14 cm (double mode)
Soil Hopper	2.2 yards ³	1,700 liters
Soil Hopper Extension	Up to 5.0 m ³	Up to 5,000 liters
Transport Dimensions	13' - 4" x 6' - 2" x 6' - 4"	4.1 x 1.9 x 1.95 m
Weight	3,527 lb	1,600 kg
Accessories	Soil hopper extension, pot dispenser, double pot dispenser, fertilizer dispenser, stainless steel chains, additional frequency converter, rotating brush.	

With over 20 years in the horticulture business, Bellpark Horticulture is a trusted name in Horticultural Automation Solutions. Serving growers in Canada and the United States, the Bellpark team strives to provide customers with the highest quality solutions.

Our sales and project consultants realize that each grower is different and that each project requires a personal level of attention to detail to ensure its success.

Our service team is committed to offering our customers the highest level of service with the quickest response time. With a dedicated parts and service department, our factory-trained technicians are available when you need them.

■ mayer

Since 1967 Mayer has been a setting new standards in the green sector with their leading innovative automation solutions for ornamental plants and tree nurseries. They develop, produce and sell quality automation solutions for substrate preparation and for filling pots and trays.
