

Machine Description

The CD-X1 Nursery Pot Dispenser is a fast, reliable solution for loading nursery pots onto a production line. This pot dispenser works with pots ranging in diameter from 6.5 inches to 15 inches. Pots are mechanically separated quickly and reliably, and then moved along a chain conveyor and tipped upright onto an inline conveyor ready to be filled. The CD-X1 Nursery Pot Dispenser features simple mechanical adjustments that make changeovers for different-sized pots fast and easy.

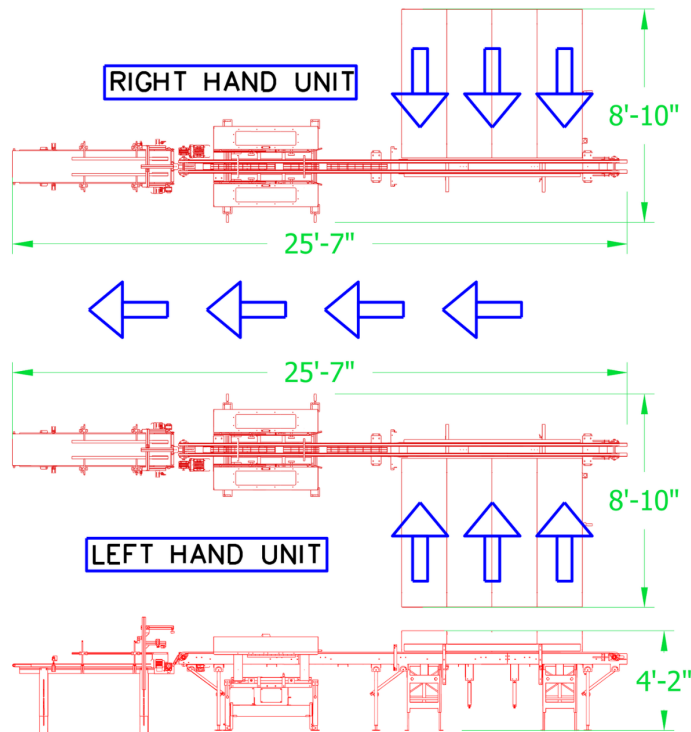

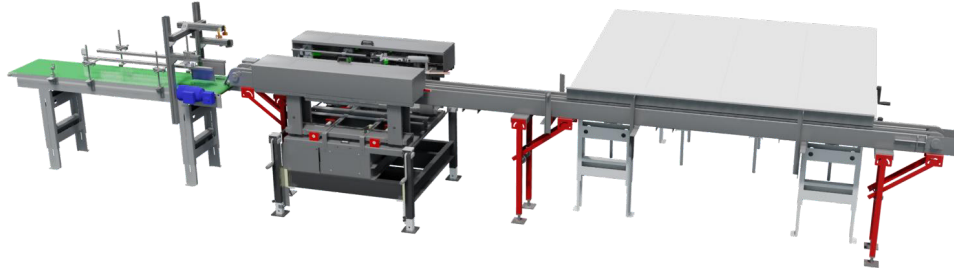

Features

- The CD-X1 can accommodate a wide range of container sizes and types, ensuring versatile application across various potting scenarios
- Equipped with a chain conveyor and pneumatic hard stops, the system carefully controls the release of containers, ensuring smooth and consistent dispensing
- A 10" color touchscreen HMI makes operation straightforward, displaying vital statistics such as pots dispensed, runtime, and current operational status

Specifications:	
Utility Requirements	230V, Single Phase, 60Hz, 8A, 14CFM at 80PSI
Production Speed	Up to 4,000 Pots per Hour
Accepted Pot Size	6.5" to 15"W (152 - 381mm)
Buffer Capacity	Up to 5000 containers in complete stacks
Machine Footprint	18'8"L x 8'6"W x 3'10"H
