

Your Priva Partner, Start to Finish

Certified service, real parts on the shelf, and a team that knows your system, around the clock.

THE ADEPTAG DIFFERENCE

A Priva system runs best with a partner who stands behind it.

AdeptAg does more than deliver the system. We help you choose the right one, commission it, train your team, and keep it running for the long haul, backed by our **Plantech Controls** division with certified expertise, parts on hand, and direct access to your system whenever you need it.

SERVICE

We make it right, fast.

Our **Plantech Controls** division resolves issues directly, hands-on. A **stocked parts inventory** means the part you need is on our shelf and ready to go.

SUPPORT

24/7, right across the street.

Plantech Controls services your system directly, **around the clock**. Sitting directly across from Priva's Canadian office keeps us closely connected for parts and resources.

KNOWLEDGE

Priva-certified, deeply connected.

As your **authorized Priva dealer**, our certified technicians can **connect directly to your system** to diagnose and resolve issues, remotely or on-site, so answers come quickly.

One Partner for Climate, Irrigation & Automation

Your Priva climate system doesn't run on its own. It works hand-in-hand with the **Zwart pump sets, water treatment, and flood floors** that move and condition your water, and the **AgriNomix automation** your team already knows and trusts. With AdeptAg, all three are supported by **one company**, so issues get diagnosed and resolved quickly instead of bouncing between vendors.

CLIMATE

Priva

Climate, irrigation & light controls, serviced by Plantech Controls.

DEDICATED TEAM + PARTS HUB

IRRIGATION & WATER

Zwart

Pump sets, water treatment, and flood floors that integrate with Priva.

DEDICATED TEAM + PARTS HUB

AUTOMATION

AgriNomix

The automation division grows across North America already rely on.

DEDICATED TEAM + PARTS HUB

- Each business unit has its **own dedicated support team and parts hub** today. We're **cross-training technicians across divisions** so a single visit can cover more of your systems and get you running again faster.

AUTHORIZED DEALER
& SERVICE PARTNER

One platform. Every size of operation. Fully supported.

From your first controller to a multi-site enterprise, we sell, commission, train, and support the full Priva One lineup: **Compass**, **Compact CC**, and **Connex**.
